What we do

B2B.MONEY is your market entry partner — blending **targeted outreach**, **partner qualification**, and **human-to-human meetings** to help you connect with **decision-makers** in your target country.

ICP Research & Market Targeting

We analyze your ideal clients and map real contacts in target country.

Custom Lead Lists

We generate and validate lead lists with decision-makers.

Direct Outreach (Email, LinkedIn, Calls)

We represent your brand in target market, initiate conversations and qualify interest.

Meeting Setup & Follow-ups

We schedule and host virtual meetings, ensure readiness, and track follow-ups.

Tracking & Reporting

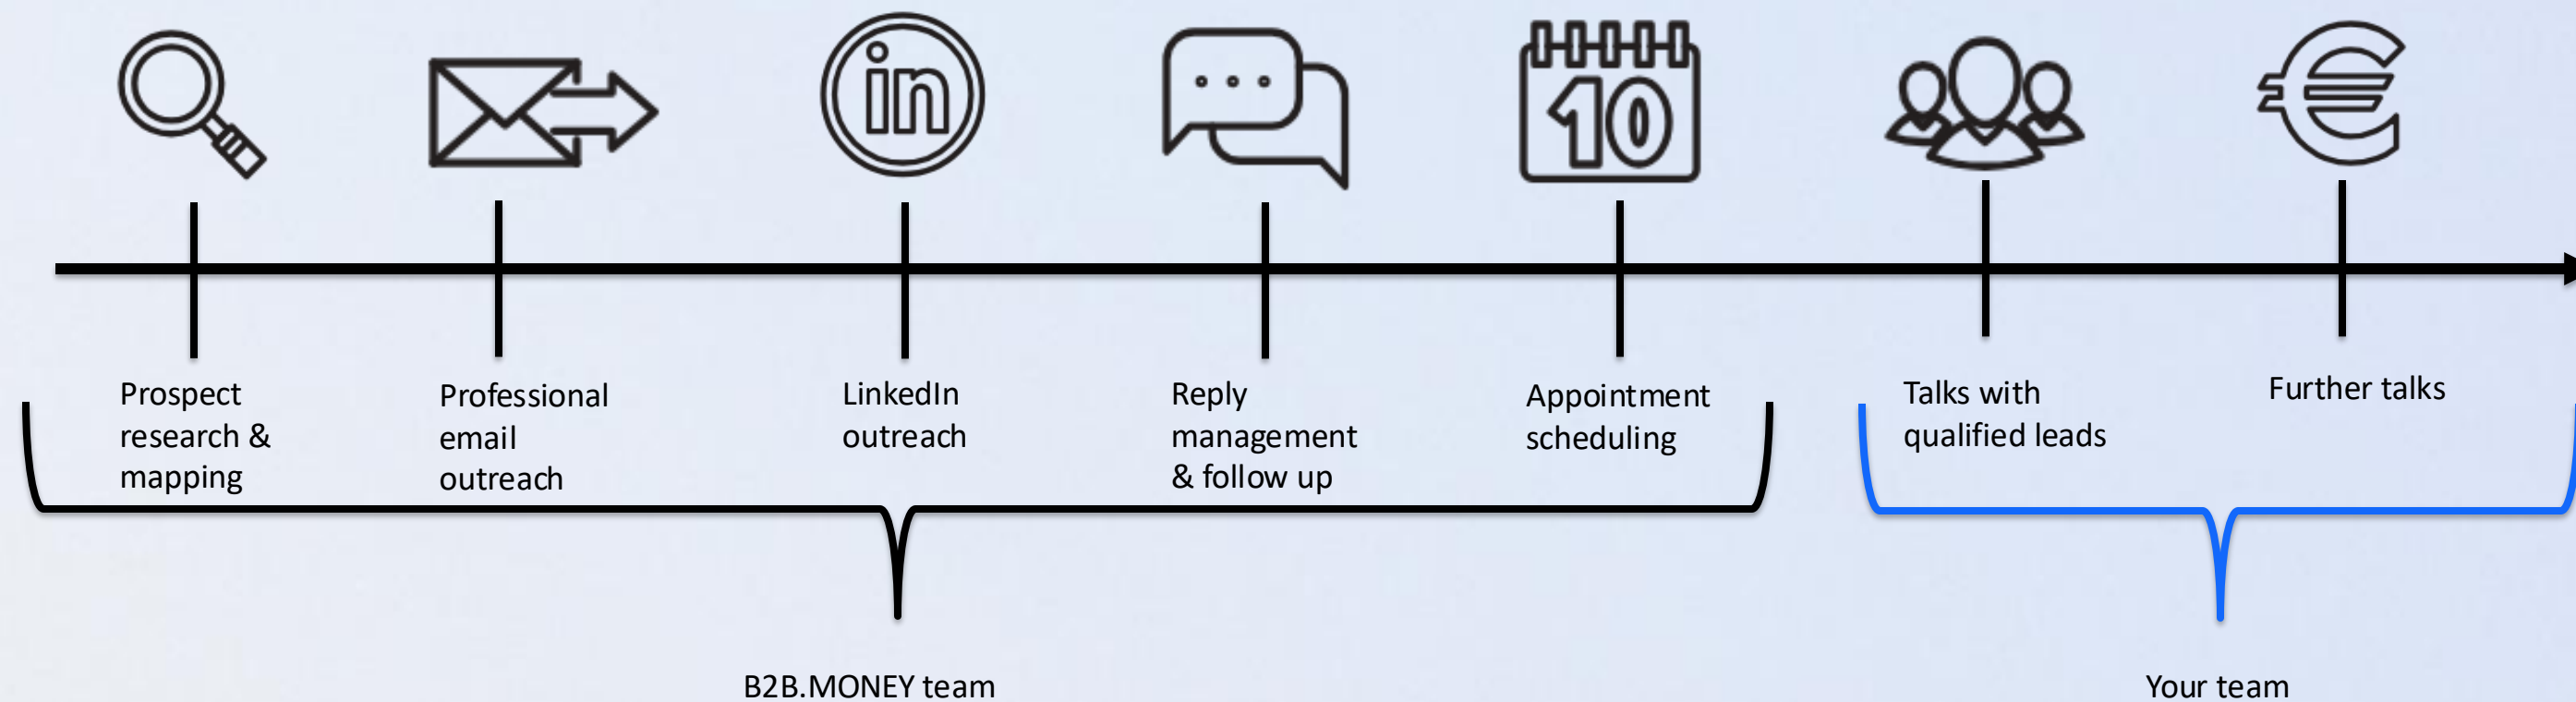

Full transparency through shared dashboards and weekly status reports.

Market Coverage

We identify and reach every relevant prospect, ensuring the market is fully explored and no opportunity is left behind.

How we do it

We use a structured, repeatable framework to identify, engage and convert potential B2B partners. From lead mapping to signed distributor meetings — every step is tracked and measurable.

How we work

- Our contract duration is 3–24 months.
- Only a comprehensive approach ensures expert-level application of all internet marketing tools.
- Continuous monitoring and adjustments to processes.

5 Reasons to Work with Us:

- We implement cutting-edge solutions
- We select advertising platforms based on client interests
- We respond quickly to client requests without internal bureaucratic delays
- Excellent reputation among real clients
- We bring clients to desired results and increase business profitability

In 2025:

- 16000+ leads
- 1450+ engagements
- 200+ online meetings
- 40 business industries
- 24 countries

A BIG name agency does not necessarily mean

Professionals at work ≠ Large staff

High customer focus ≠ Numerous awards

Positive reputation among real clients ≠ Public recognition

The Forbes logo is displayed in white serif font on a black rectangular background. In the bottom left corner of the slide, there is a decorative pattern of white geometric shapes resembling a honeycomb or a series of interlocking triangles.
